

# Comline CO 5W30 C1

## 5W-30

Fully synthetic long-life motor oil based on low-SAPS technology

### Description:

Comline CO 5W-30 C1 is a fully synthetic motor oil for petrol and diesel engines in passenger cars and light duty commercial vehicles, where a fuel-economy engine oil is prescribed (ACEA C1)

Comline CO 5W-30 C1, manufactured with Comline's OPT additives, offers an extremely high protection over prolonged drain intervals. Especially recommended for Euro-4 cars with soot filters to prevent filter blocking.

Because of this, Comline CO 5W-30 C1 has low sulphated ash contents and also low levels of phosphor and sulphur (so called "low SAPS" technology).

Comline CO 5W-30 C1 has extra fuel-saving properties and is also suitable for all Ford engines that prescribe the Ford M2C-934A or M2C-934B specification, as well as Mazda and Volvo engines where "low-SAPS engine oils are prescribed.

Comline CO 5W-30 C1 not only offers extremely good wear protection, but also protects against rust and oxidation, while special additives keep the engine clean from dirt, sludge and deposits during the sometimes extremely long drain intervals.

Comline CO 5W-30 C1 provides an extremely quick and stable lubricant film on cold starts and a high thermal stability under heavy duty operating conditions.

### Performance level:

ACEA: C1(08); A1/B1; A5/B5 (07)

Ford M2C-934A, M2C-934B

JASO DL-1 (05)

### Typical properties:

#### 5W-30

Density 20°C	Kg/L	0,847
Viscosity 100°C	cSt	9,5
Viscosity 40°C	cSt	50,8
Viscosity -30°C	cP	<6600
Viscosity Index		172
Flash point COC	°C	223
Pour point	°C	-39
Sulphated ash	Wt%	0,5
