

Comline CO 5W40 PD

5W40 PD

Fully synthetic oil for VW diesel engines with pump injector unit

Description

Comline CO 5W40 PD is a fully synthetic motor oil for petrol and diesel engines in passenger cars and light commercial vehicles. This oil can be applied in cars equipped with catalytic converters, turbo charged engines, soot filters/Diesel particulate filters and/or direct fuel injection systems.

Comline CO 5W40 PD contains less phosphor, sulphur and sulphated ash, so exhaust gas treatment systems (soot filters/Diesel particulate filters and catalytic converters) are prevented from blocking (so called "mid SAPS" technology).

Comline CO 5W40 PD has been especially developed for passenger cars and light commercial vehicles of the VAG group (Volkswagen, Audi, Seat and Skoda). It has also been composed to make the product suitable for VW diesel engines with direct injection pump discharge nozzle technology (PDi/Tdi with red D and red i) and for engines for which VW 505.01 motor oils are prescribed.

This oil can also be used for the Ford Galaxy, for which a Ford M2C-917A motor oil is prescribed. Comline CO 5W40 PD can also be used for Euro 4 passenger cars of Mercedes Benz and BMW, equipped with soot filters/Diesel particulate filters, to prevent these filters from blocking.

Performance level:

API: SM/CF
ACEA: A3/B4 (07)
ACEA: C3 (08)
VW 505.01 (05)
VW 500.00/502.00/505.00
