

# Clutch Kits

## PERFORMANCE in the CLUTCH

A focused range of over 500 Comline references offering excellent vehicle parc coverage across European, Japanese and Korean passenger cars and LCVs.

Comline's high-quality range of all makes clutch kits offers proven performance and are a competitive alternative to the OE brands.

### Why Comline?

- ✓ **Proven Technology**  
Comline offers SMF (Single Mass Flywheel) clutch kits, a technology that has stood the test of time and offers a proven track record for **durability and reliability**.
- ✓ **QC Inspected**  
Comline clutch kits are **QC checked** and assembled in the UK to ensure that each and every clutch kit meets exacting standards.
- ✓ **Quality Manufacturing**  
Comline clutch kits are manufactured under **ISO 9001, QS9000, ISO/TS 16949** quality assurance standards to deliver quality, reliability and ease of fitment.
- ✓ **Raw Material Analysis**  
Raw materials undergo strict analysis for **chemical composition, tensile strength, hardness and microstructure** to ensure conformity to Comline quality standards prior to production.
- ✓ **Performance Testing**  
Comline clutch kits are **extensively performance tested post-production** to ensure each part is ready for the demands of real-world motoring. Testing includes:
  - + **Clamp load**
  - + **Release load**
  - + **Pressure plate lift**
  - + **Stress & fatigue testing**

# Clutch Kits

The Complete

## Comline Range

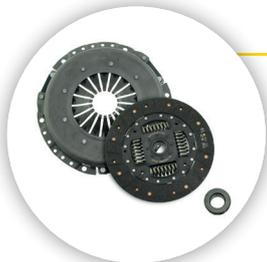

### Clutch Kit (Standard)

- Included:
- Clutch Disc
